

# ALTERED BEAST™

## LCD VIDEO GAME

### 1 THE ALTERED BEAST STORY

It is the time of gods and myths and legends. When men were warriors and courageously fought unnatural enemies in the endless battle of good against evil. It is the time of Altered Beast™.

Summoned by Zeus, God of Thunder, you have been awakened from the dead to challenge the wicked Neff, God of the Underworld, for the fate of Athena. And Athena is no ordinary girl. She is the daughter of Zeus and must take her rightful place among the Gods if only you can free her from her place of imprisonment.

Although you were once a brave and awesome Roman centurion, the rigors of this journey demand a supernatural display of strength. And so you are bestowed with the powers of the Altered Beast™. The power to transform your being into a part animal, part human creature of formidable force.

But to achieve this rare form of vitality, you must earn it. By conquering foes and capturing spirit balls, you will muster the energy to transmute from one beast to another.

### 2 INSERTING THE BATTERIES

To insert the battery, remove the battery compartment cover at the back of the game. (To remove cover push in direction of the arrow.)

Insert two "AA" batteries, UM-3 or equivalent (not included), making sure to align "+" and "-" as shown.

After battery insertion, the ACL switch may be pushed only if the game doesn't work properly. (Use a ball-point pen.) The display should appear as in the diagram below.

### 3 CAUTION

## SCORING

You will be scoring points along the way through the stages. You score: 10 points for defeating each monster. 100 points for defeating each of the stage guards at end of stage.

You begin fighting in human form. In human form, it takes 2 times of attack (KICK/PUNCH) to destroy a monster.

However, you will gain the power of transformation! You will transform into an Altered Beast™ where you are much more powerful, and then it takes just 1 attack (KICK/PUNCH) to destroy a monster!

A Lascert Wolf carries a SPIRIT BALL on each stage. Kill the wolf and you become energized and transformed into a powerful Altered Beast™. On each stage, you become a different Altered Beast™:

	STAGE 1: WOLF
	STAGE 2: DRAGON
	STAGE 3: BEAR
	STAGE 4: TIGER
	STAGE 5: GOLDEN WOLF

In stage 2, you are altered into a flying dragon. In the other stages, you are an Altered Beast™ that fights on the ground.

#### LIFE-BARS

You start each stage with 8 units of life-bar. You lose a life-bar whenever you are attacked twice by an enemy monster. If you lose all your life-bars, the GAME IS OVER. Whenever you advance to a new stage, your life-bar count is completely restored to the full power supply of 8 units.

#### REMEMBER...

In order to advance to the next stage, you must defeat the stage guard (boss) at the end of each stage.

## 8

Press the "ON/START" button to turn on the game. A simple game-start melody is played. The maximum score is displayed for about 2 seconds, and then followed by a display of the stage number for 1 second. The game always starts from stage 1. You begin each stage with 8 units of life-bar.

#### ATTACK

You attack enemy monsters by "KICK" or "PUNCH":

Press "KICK" to attack enemy by "KICK".

Press PUNCH FRONT ► to attack enemy in front of you.

Press PUNCH BACK ◄ to attack enemy behind you.

You begin each stage in human form. It takes 2 punches or kicks to kill an enemy while in human form. When you are transformed into an Altered Beast™ (see GAME SUMMARY), it takes only 1 punch or kick.

You always fight on the ground, except when you are altered on stage 2 into a flying dragon.

When you have been transformed to a dragon, press "KICK/ATTACK" button to attack. Use ► and ◄ keys to move forwards and backwards. You will have to move to the front position in order to attack the stage guard for stage 2 — the evil Octeyes!

When you are fighting on the ground, use ▲ and ▼ to JUMP up and down in order to get out of harm's way when you are being attacked simultaneously from two sides!

Each time, you successfully attack an enemy, you will score points. However, each time an enemy successfully attacks you (an enemy is successful whenever he hits you twice), you will lose a unit of your life-bars. If you ever run out of life-bars, the GAME IS OVER. As you advance to a new stage, you begin each stage returned to your full power of 8 life-bars.

Remember, you must attack and defeat the stage guard at the end of each level in order to advance to the next stage. On the 5th and final stage, you come face to face with the final stage guard, none other than Neff, God of the Underworld. Defeat Neff to win the game.

The game will pause after each stage. Press "ON/START" to start the next stage. If you get tired during your quest, you can press the PAUSE button to get a rest. Just press "ON/START" to resume battle.

After a "GAME OVER", press "ON/START" to start another game. You always begin on stage 1 and in human form.

If you wish to do battle in silence, press the "SOUND" button. Press the "SOUND" button again to regain the sound.

When you're finished playing, press the "OFF" button to shut off the unit.

If the game falls into enemy hands (or you just forget to shut off the game), don't worry — the gods are with you — the game has a built-in auto power-off timer that automatically shuts off the game in about 3 minutes!
